

Jinghong Basin Mixers

BPIR Declaration

Version: V1

Designated building product: Class 1

Declaration

Jinghong Pty Ltd has provided this declaration to satisfy the provisions of Schedule 1(d) of the Building (Building Product Information Requirements) Regulations 2022.

Product/system

Name	Jinghong Basin Mixers
Identifier	Series JHD, JHX, JFH

Description

The Jinghong JHD, JHX, and JFH series basin mixers are hob-mounted taps made from DZR brass, designed to meet the AS3718 standard.

These mixers are intended for use in both residential and light commercial settings, compatible with mains pressure water supply systems.

All models are available in both standard and extended height options.

They come with a chrome finish, with some models offering a variety of additional finish options.

Each model is equipped with temperature indicators, with red denoting hot water and blue indicating cold water.

Scope of use

The JHD, JHX, JFH hob mounted basin mixers are intended for use with hot & cold water in residential & light commercial applications, with mains pressure water supply systems.

Conditions of use

Jinghong hob mount mixers must be installed by a registered plumber in accordance with the supplied instructions & in compliance with the relevant requirements of AS/NZS 3500 & AS/NZS 6400.

The water supply pipes must be flushed thoroughly to remove any debris. In-line water filters must be used.

Recommended working pressure: 100kPa to 500kPa. Maximum working pressure: 800kPa.

If pressure exceeds 500kPa, a pressure limiting valve must be installed.

The maximum permitted temperature of water at the outlet is 50 degrees Celsius.

This product is cleanable and impervious to moisture — cleaning shall be done in accordance with the supplied cleaning instructions.

Relevant building code clauses

B2 Durability — B2.3.1 (c)

F2 Hazardous building materials — F2.3.1

G1 Personal Hygiene — G1.3.2

G12 Water Supplies — G12.3.2, G12.3.5

Contributions to compliance

B2.3.1(c): Per B2/AS1, Durability Requirements of Nominated Building Elements for Plumbing Fixtures, Jinghong JHD, JHX, JFH Basin mixers have a durability of at least 5 years, when installed and maintained in accordance with our supplied instructions. The Jinghong JHD, JHX, JFH Basin mixers are designed & manufactured to AS/NZS 3718 (Water supply—Tap ware) & are Watermark certified to this standard under Licence no. WMKA20108.

F2.3.1: No materials used in the construction of Jinghong Basin Mixers give rise to harmful concentrations at the surface of the material where the material is exposed, or in the atmosphere of any space.

G1.3.2: Jinghong Basin Mixers features chrome, brushed nickel or matt black or gun metal finished surfaces for ease of cleaning.

G12/AS1 2.1.2: Metallic or non-metallic water supply materials and components used in Jinghong Basin Mixers comply with AS/NZS 4020 (Testing of products for use in contact with drinking water).
